

We have narrow roads and super views, but are often short of parking and other facilities. So please:

- Plan ahead; before arriving on Mull, book your space at a campsite.
- Overnight only at a designated camp site.
- Empty chemical toilet waste at the waste disposal sites shown overleaf. Public toilets are not suitable for waste disposal.
- Only use camping stoves in an approved area, not open campfires because of the risk of wildfires.
- Take care not to obstruct entrances, passing places or homes.
- When driving on single track roads, stay on the tarmac. Don't attempt to pass oncoming cars by driving on the verges, use the passing places.
- Drive as slowly as you wish but let following traffic overtake, by pulling into and stopping your vehicle in a Passing Place on your left.
- Dispose of all your litter responsibly. If you take away any other litter you see, we would be very grateful.
- Follow the Scottish Outdoor Access Code to be sure you do not harm wildlife or the environment.
- Visitor vehicles are not allowed on Iona or Ulva, but we recommend a visit on foot or cycle. There is free daytime parking at the Columba Centre, Fionnphort and at Ulva Ferry.

Wild camping is for walkers and cyclists.

The Scottish Outdoor Access Code excludes motorised access for wild camping. This means any motorhome or campervan parking overnight in an area out-with established campsites and without permission to stay, may be asked to leave by the landowner.
